What is Zotero?

Zotero is a free online tool that helps you collect, organize, cite, and share your research sources.

Zotero is, at the most basic level, a reference manager. It is designed to store, manage, and cite bibliographic references, such as books and articles.

Demonstration

After installing Zotero; (Browser add-on, Zoero app & word plunin)

→Find article

→Save to my Library

→Cite article using zotero

→Generate bibliography

Installing Zotero

✓ **You'll need this stuff first:**

- ✓ A computer running **Windows, macOS, or Linux.**
- ✓ A current **web browser.** Zotero works best with **Chrome, Safari, Firefox, & Opera.**
- ✓ A current **word processor.** Zotero works with **Microsoft Word and LibreOffice.**

Saving Sources

Three* ways to save sources:

From the **Browser Connector**

Save sources directly from databases and journal websites

By **Item Identifier**

Add books and journal articles by pasting in their ISBN or DOI

Manually, from a template

Add all kinds of sources, even when they're not available online or are difficult to describe.

Lets try it

- **Launch Zotero and create a folder for your collection**
- **Search for article from google scholar**
- **Save article in the library**
- **Launch word application**
- **Cite the article**
- **Generate bibliography**
